The fontawesome5 package*

Font Awesome†(The font)
Marcel Krüger‡(The LaTeX package)

June 7, 2019

This package provides LaTeX support for the Font Awesome 5 icons.
To use Font Awesome 5 icons in your document, include the package with

```
\usepackage{fontawesome5}
```

Alternatively you can add the `fixed` option to get fixed-width icons:

```
\usepackage[fixed]{fontawesome5}
```

For every icon a macro is provided: Just use the official icon names converted to CamelCase with the prefix `\fa`. For example to use the `hand-point-up` icon, use `\faHandPointUp`. For icons ending with `-alt`, append a `*` instead. An optional argument can be added to select the style (`solid` or `regular`). The default style is `solid`, it can be changed with `\faStyle{...}`

Every icon can also be accessed using the official icon name. To do this, you can use `\faIcon{the-icon-name}` or `\faIcon[style]{the-icon-name}`.

A list of all included icons with their respective commands can be found at the end of this document.

Example

```
...
\usepackage{fontawesome5}
...
\begin{document}
...
A simple icon: \faHandPointUp\\
Multiple versions of the file icon:
  \faFile~
```

```
  \faFile*~
  \faFile[regular]~
  \faFile*[regular].\\
Alternative syntax:
  \faIcon{file}~
  \faIcon*{file}~
  \faIcon[regular]{file}~
  \faIcon*[regular]{file}.
...
\end{document}
```

A simple icon: ☚
Multiple versions of the file icon: ▮ ▤ ▯ ▤.
Alternative syntax: ▮ ▤ ▯ ▤.

Font Awesome Pro

Font Awesome 5 is available in a Free and a Pro version. This package uses the free version by default. If you own a Pro license and have the Font Awesome 5 Pro desktop fonts installed in your system font path, you can use Pro instead. For this, load the package with the [pro] option:

```
  \usepackage[pro]{fontawesome5}
```

Now additional icons and the `light` style can be used. Pro is only supported with X∃LATEX and LuaLATEX.

Updates

This package corresponds to Font Awesome 5.9.0. In case there is a newer version available on the Font Awesome homepage, check for updates on `https://ctan.org/pkg/fontawesome5`. Should there be no corresponding update on CTAN, you can write a mail to `tex@2krueger.de`. If you use X∃LATEX or LuaLATEX, you can also directly download the new Desktop Fonts from `https://fontawesome.com` into your TEX tree. If you save them with the filenames
```
 FontAwesome5Brands-Regular-400.otf
 FontAwesome5Free-Regular-400.otf
 FontAwesome5Free-Solid-900.otf
```
the package will start using the new version right away.

Bugs

For bug reports and feature requests, write to `tex@2krueger.de`.

Full icon list for FontAwesome 5 Free

All icons marked with ™ are brand icons.
